

Office to Cocktails

It's that time of year when your social calendar begs for a glamorous look that goes from office to cocktails but without the need for an epic wardrobe change.

Here are a few tips to keep the task light and the look festive:

- Choose a sheath dress whose look can be changed by the addition or deletion of a jacket.
- Swap your work blouse for a shimmering sweater over a fitted pencil skirt. Add a sexy, colorful shoe.
- Change the dress shirt, omit the tie, add swagger.
